

Project Design Phase

Problem – Solution Fit Template

Date	12 July 2026
Team ID	
Project Name	Electric Vehicle Charge and Range Analysis
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Problem-Solution Fit Canvas 2.0 – Electric Vehicle Charge & Range Analysis

Purpose / Vision: Empower EV buyers and stakeholders with data-driven insights for smart decisions on EV performance, charging, and market trends.

Define CS: define CC 1. CUSTOMER SEGMENT(S) CS - EV Buyers / Potential Customers (all age groups) - EV Owners - Automakers & Manufacturers - Researchers & Data Analysts - Government & Policy Makers - Charging Station Operators - Students and Academics	Explore AS: differentiate 6. CUSTOMER CONSTRAINTS CC - Lack of clear comparison between EV models. - Confusing data on range, charging time and cost. - Uncertainty about real-world performance. - Scattered charging station information. - Time-consuming manual analysis of data. - Need for interactive and easy-to-understand insights.	Explore AS: differentiate 3. AVAILABLE SOLUTIONS AS - Traditional comparison websites and brochures. - Basic EV specifications on manufacturer sites. - News articles and market reports. - Existing dashboards (limited insights). - Data visualization tools (Excel, Power BI). - Machine learning models (complex for non-technical users).
Explore Pains: define RC; summarize AC 2. JOBS-TO-BE-DONE / PROBLEMS J&P - Compare EV models based on range, price and charging time. - Find nearby charging stations and availability. - Analyze EV market trends and growth. - Understand charging cost and efficiency. - Visualize data in an easy and interactive way. - Make informed purchase or investment decisions.	Explore Pains: define RC; summarize AC 9. PROBLEM ROOT CAUSE RC - Lack of awareness about complete EV data. - Data is available in multiple formats and sources. - Manual analysis is time-consuming and error-prone. - Lack of interactive visualization for non-technical users. - Delayed access to real-time charging station data. - No centralized platform for all EV insights.	Explore Pains: define RC; summarize AC 7. BEHAVIOUR BE - Users search multiple websites for EV information. - Rely on basic comparisons and reviews. - Download reports but find them hard to analyze. - Users want visual and interactive dashboards. - Prefer easy-to-understand insights. - Share insights for better decision-making.
Identify Triggers: TB & EM 8. TRIGGERS TR - Rising fuel prices and pollution concerns. - Government policies promoting EV adoption. - Increasing number of EV models in the market. - Need to save on running and maintenance cost. - Better technology and charging infrastructure.	Identify Triggers: TB & EM 10. YOUR SOLUTION SL - An interactive EV Charge & Range Analysis platform. - Visual dashboards with KPIs, charts and maps. - Easy comparison of EV models. - Real-time charging station insights. - Built using Tableau for visualization and Flask for a seamless web experience. - Helps users explore data and make informed decisions easily.	Identify Triggers: TB & EM 8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE - Web application accessible anywhere. - Shared dashboards and reports. - Embedded visualizations. 8.2 OFFLINE - Reports and presentations. - Awareness programs and events. - Printed reports for stakeholders.
